#### INDEPENDENT AUDITORS' REPORT

His Excellency Kessai Note President Republic of the Marshall Islands:

We have audited the accompanying financial statements of the governmental activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the Republic of the Marshall Islands (RepMar), as of and for the year ended September 30, 2006, which collectively comprise RepMar's basic financial statements as set forth in Section II of the foregoing table of contents. These financial statements are the responsibility of the management of RepMar. Our responsibility is to express an opinion on the respective financial statements based on our audit.

Except as discussed in the following paragraphs, we conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the respective financial statements are free of material misstatement. An audit includes consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of RepMar's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the respective financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

Management has not included Kwajalein Atoll Joint Utilities Resources, Inc. in RepMar's financial statements. Accounting principles generally accepted in the United States of America require Kwajalein Atoll Joint Utilities Resources, Inc. to be presented as a major component unit and financial information about Kwajalein Atoll Joint Utilities Resources, Inc. to be part of the aggregate discretely presented component units, thus increasing the assets, liabilities, revenues, and expenses of the aggregate discretely presented component units, and changing their net assets. The amount by which this departure would affect the assets, liabilities, net assets, revenues, and expenses of the aggregate discretely presented component units is not reasonably determinable.

In addition, the financial statements of Air Marshall Islands, Inc. have not been audited, and we were not engaged to audit these financial statements as part of our audit of RepMar's basic financial statements. The financial activities of Air Marshall Islands, Inc. are included in RepMar's basic financial statements as a discretely presented component unit and represent 3% and 5%, respectively, of the assets and revenues of RepMar's aggregate discretely presented component units.

In our opinion, because of the omission of Kwajalein Atoll Joint Utilities Resources, Inc., as discussed in the third paragraph above, and had the financial statements of Air Marshall Islands, Inc. been audited, as discussed in the fourth paragraph above, the financial statements referred to above do not present fairly, in conformity with accounting principles generally accepted in the United States of America, the financial position of the aggregate discretely presented component units of the Republic of the Marshall Islands as of September 30, 2006, or the changes in financial position thereof for the year then ended.

Further, in our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of the Republic of the Marshall Islands as of September 30, 2006, and the respective changes in financial position thereof for the year then ended in conformity with accounting principles generally accepted in the United States of America.

The Management's Discussion and Analysis, on pages 3 through 11, as well as the Schedule of Revenues, Expenditures, and Changes in Deficit - Budget and Actual - General Fund and notes thereto, as set forth in Section III of the foregoing table of contents, are not a required part of the basic financial statements but are supplementary information required by the Governmental Accounting Standards Board. This supplementary information is the responsibility of the management of RepMar. We have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the supplementary information. However, we did not audit such information and we do not express an opinion on it.

Our audit was conducted for the purpose of forming an opinion on RepMar's respective financial statements that collectively comprise RepMar's basic financial statements. The Other Supplementary Information, as set forth in Section IV of the foregoing table of contents, is presented for the purpose of additional analysis and is not a required part of the basic financial statements of RepMar. This supplementary information is the responsibility of the management of RepMar. Such additional information has been subjected to the auditing procedures applied by us in the audit of the basic financial statements and, except for the effect of the matters described in the fourth paragraph above, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

In accordance with Government Auditing Standards, we have also issued our report dated June 15, 2007, on our consideration of the Republic of the Marshall Islands' (primary government only) internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with Government Auditing Standards and should be considered in assessing the results of our audit.

Management's Discussion and Analysis Year Ended September 30, 2006

Our discussion and analysis of the Republic of the Marshall Islands ("RepMar") financial performance provides and overview RepMar's financial activities for the fiscal year ended September 30, 2006. Please read it in conjunction with RepMar's basic financial statements, which follow this section. Fiscal year 2005 comparative information has been included, where appropriate.

#### FINANCIAL HIGHLIGHTS

- For the fiscal year ended September 30, 2006, RepMar's total net assets, as restated, increased by \$14.1 million (or 29.4%) from \$48.3 million in the prior year to \$62.4 million. This increase is primarily attributable to the receipt of donated assets from the Government of Japan of \$4.5 million and the net increase in the corpus of the Compact Trust Fund of \$8.0 million.
- During fiscal year 2006, RepMar's expenses for governmental activities were \$95 million, including expenses recorded or payments made or due to the autonomous agencies, and were funded in part by \$76.6 million in program revenues and \$32.5 million in taxes and other general revenues. Program revenues increased by \$4.1 million (or 5.7%) from \$72.5 million in the prior year to \$76.6 million, which was attributable primarily to the earnings of the Compact Trust Fund. General revenues increased marginally by \$1.2 million (or 0.4%) from \$31.3 million in the prior year to \$32.5 million, which was attributable primarily to an increase in gross revenue taxes. Expenses, on the other hand, decreased by \$7.1 million (or 7%) from \$102.1 million in the prior year to \$95.4 million. The decrease in expenses was primarily due to a one-time payment in the prior year of \$15 million, being the United States' FY 2004 and FY 2005 contributions for the establishment of the Trust Fund, offset by an increase in education and health-related expenses in 2006 compared with 2005 of \$6.8 million.
- For the fiscal year ended September 30, 2006, the General Fund reported charges to general fund appropriations (including transfers out) of \$34.9 million, \$0.8 million in excess of reported revenues (and transfers in) of \$34.1 million. General fund appropriations were down \$1.2 million (or 3.2%) from fiscal year 2005 primarily due to a decrease in transfers out to other governmental funds of \$1.0 million (down from \$2.5 million in 2005 to \$1.5 million in 2006). Charges to appropriations, including transfers out, of \$35.1 million were lower than budgeted amounts of \$37.3 million. Furthermore, revenues collected of \$34.1 million were lower than budgeted amounts of \$37.2 million, resulting in an overall net budgetary deficit for fiscal year 2006 of \$0.9 million.
- At September 30, 2006, the General Fund reported a total fund balance deficit of \$5.9 million, which is an increase of \$0.8 million (or 16.4%) from the prior year deficit of \$5.1 million. This negative change in the deficit is primarily attributable to an increase in the deficit of the unreserved general fund balance of \$1.0 million (or 18.8%).

#### **OVERVIEW OF THE FINANCIAL STATEMENTS**

This discussion and analysis is intended to serve as an introduction to RepMar's basic financial statements. RepMar's basic financial statements comprise three components: 1) governmental-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements. This report also contains additional required supplementary information in the form of budgetary schedules, which are prepared on the budgetary basis of accounting, and other optional supplementary information, in addition to the basic financial statements themselves, which includes combining statements for governmental funds and component units.

Management's Discussion and Analysis Year Ended September 30, 2006

#### **Government-wide Financial Statements**

The government-wide statements report information about RepMar as a whole using accounting methods similar to those used by private-sector companies. The statement of net assets includes all of the government's assets and liabilities. All of the current year's revenues and expenses are accounted for in the statement of activities regardless of when cash is received or paid.

The two government-wide statements report RepMar's net assets and how they have changed. Net assets - the difference between RepMar's assets and liabilities - is one way to measure RepMar's financial health or position.

- Over time, increases or decreases in RepMar's net assets are an indicator of whether its financial health is improving or deteriorating, respectively.
- To assess the overall health of RepMar you need to consider additional non-financial factors such as changes in RepMar's tax base, the condition of RepMar's roads and infrastructure, and the quality of services.

The government-wide financial statements of RepMar are divided into two categories:

- Primary government this grouping comprises governmental activities, which includes most of RepMar's basic services such as education, health, special appropriations, finance, judiciary, and general administration. Compact and other federal grants finance most activities of the primary government.
- Discretely presented component units RepMar includes numerous other entities in its report. Although legally separate, these "component units" are important because RepMar is financially accountable for them.

#### **Fund Financial Statements**

The fund financial statements provide more detailed information about RepMar's most significant funds - not RepMar as a whole. Funds are accounting devices that RepMar uses to keep track of specific sources of funding and spending for particular purposes.

- Some funds are required by Nitijela legislation.
- RepMar establishes other funds to control and manage money for particular purposes (like Republic of China Projects Fund) or to show that it is properly using certain grants (like federal grants reported in the U.S. Federal Grants Fund).

#### RepMar has two kinds of funds:

• Governmental funds - Most of RepMar's basic services are reported in governmental funds, which focus on how money flows into and out of those funds and the balances left at year-end that are available for spending. These funds are reported using an accounting method called modified accrual accounting, which measures cash and all other financial assets that can readily be converted to cash. The governmental fund statements provide a detailed short-term view of RepMar's general government operations and the basic services it provides. Governmental fund information helps determine whether there are more or fewer financial resources that can be spent in the near future to finance RepMar's programs.

Management's Discussion and Analysis Year Ended September 30, 2006

#### **Fund Financial Statements, Continued**

• Fiduciary funds - RepMar is the trustee, or fiduciary, for other assets that because of trust arrangement, can be used only for the trust beneficiaries. RepMar is responsible for ensuring that the assets reported in these funds are used for their intended purposes. All of RepMar's fiduciary activities are reported in a separate statement of fiduciary net assets and a statement of change in fiduciary net assets. We exclude these activities from RepMar's government-wide financial statements because RepMar cannot use these assets to finance its operations.

#### A FINANCIAL ANALYSIS OF REPMAR AS A WHOLE

Net assets may serve over time as a useful indicator of a government's financial position. At the end of fiscal year 2006, RepMar's assets exceeded liabilities by \$62.4 million. However, all these net assets are either restricted as to the purpose they can be used for or are invested in capital assets. RepMar uses these capital assets to provide services to citizens; consequently, these assets are not available for future spending. Although RepMar's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate the liabilities. The summary of Net Assets (condensed) presented below, with comparable balances for fiscal year 2005, discloses this relationship:

#### RepMar's Net Assets As of September 30

	<u>2006</u>	<u>2005</u>
Current and other assets Capital assets	\$ 73,920,679 76,825,995	\$ 64,119,971 69,689,284
<b>Total Assets</b>	 150,746,674	 133,809,255
Long-term liabilities Other liabilities	 63,260,171 25,041,396	63,878,315 21,657,875
<b>Total Liabilities</b>	 88,301,567	 85,536,190
Net assets: Invested in capital assets, net of related debt Restricted net assets	54,128,155 48,637,785	46,905,499 48,895,897
Unrestricted net assets	 (40,320,833)	 (47,528,331)
<b>Total net assets</b>	\$ 62,445,107	\$ 48,273,065

At the end of fiscal year 2006, RepMar's unrestricted net asset deficiency was \$40.3 million, a decrease of \$7.2 million (or 15.2%) from the prior year. This deficit is the result of having long-term commitments that are greater than currently available resources. Specifically, RepMar did not include in past annual budgets the full amounts needed to finance future liabilities arising from Asian Development Bank (ADB) and other loans as well as to pay for unused employee leave balances. RepMar will include these amounts in future years' budgets as they become due. The bulk of RepMar's assets lie in its Compact Trust Fund, investments (non-capital assets) and long-term liabilities.

Management's Discussion and Analysis Year Ended September 30, 2006

### **Changes in Net Assets**

For the year ended September 30, 2006, net assets of the primary government increased by \$14.1 million, an increase of 29.4% from the prior year's restated amount of \$48.3 million. This result indicates that RepMar's financial condition, as a whole, improved from the prior year. For the year ended September 30, 2006, net assets of the primary government changed as follows, with comparable amounts for fiscal year 2005:

Other expenses in fiscal year 2006, excluding the one-off payment of \$15.0 million in the prior year to establish the Trust Fund, consisted of expenses within Special Appropriations of \$5.4 million, down from \$10.8 million (or 49.8%) in fiscal year 2005, the Ministry of Education of \$24.2 million, up from \$22.0 million (or 10.2%) in fiscal year 2005, the Ministry of Health and Environment of \$21.0 million, up from \$17.3 million (or 21.3%) in fiscal year 2005, the Ministry of Transportation and Communication of \$3.4 million, down from \$4.9 million (or 30.6%) in fiscal year 2005, the Ministry of Internal Affairs of \$2.7 million, down from \$3.0 million (or 11.4%) in fiscal year 2005, the Ministry of Justice of \$3.7 million, up from \$3.1 million (or 17.6%), the Ministry of Finance of \$6.7 million, up from \$3.8 million (or 77.4%) in fiscal year 2005, the Ministry of Foreign Affairs and Trade of \$2.9 million, down from \$3.0 million (or 6.0%) in fiscal year 2005, and nuclear claims related of \$3.4 million, up from \$3.1 million (or 8.4%) in fiscal year 2005.

RepMar's revenues from governmental activities, including local revenues, Compact and other grant funding, totaled \$109.1 million in fiscal year 2006. The cost of governmental activities totaled \$95 million; the excess representing an increase in net assets of \$14.1 million.

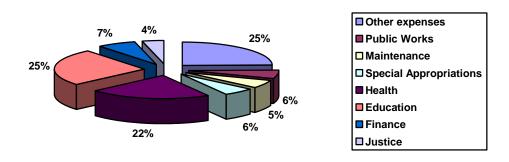

Graphs 1 and 2 below show the major components of revenues and cost of governmental activities.

Graph 1
RepMar's Revenue Sources
For the Year Ended September 30, 2006

As in prior years, Compact funding and federal and other grants are the major sources of revenue for RepMar, which comprise 66% of the total revenues for fiscal year 2006. The remaining 34% is predominantly comprised of local sourced tax revenues, including income taxes and gross revenue taxes.

Special appropriation expenses in fiscal year 2006 consisted mainly of subsidies to component units of \$3.1 million, down from \$7.0 million (or 55.7%) in fiscal year 2005, government utility billings of \$0 million, down from \$1.2 million (or 100%) in fiscal year 2005, and land leases/leased housing of \$1.1 million, the same as in fiscal year 2005.

Management's Discussion and Analysis Year Ended September 30, 2006

#### FINANCIAL ANALYSIS OF REPMAR'S FUNDS

As noted earlier, RepMar uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. As of the end of fiscal year 2006, RepMar's governmental funds reported a combined fund balance of \$50.9 million, which represents an increase of \$7 million (or 15.8%) in comparison with fiscal year 2005. This increase is primarily attributable to an increase in fund balance of the Compact Trust Fund of \$8.0 million partially offset by a decrease in fund balance of the General Fund of \$0.8 million. Of this total combined fund balance, \$58.7 million is reserved to indicate that it is not available for new spending because it has already been committed: 1) to generate income for future operations (\$41.9 million); 2) to liquidate contracts and purchase orders of the prior period (\$10.8 million); or 3) for a variety of other restricted purposes (\$6.0 million). The combined unreserved deficit of RepMar's governmental funds is \$7.8 million, an increase of \$5.5 million (or 238%) from fiscal year 2005. This deficit will be funded through future budgetary surpluses.

#### **General Fund Budgetary Highlights**

During the course of the fiscal year, management and elected officials of RepMar revised the General Fund budget. The revised budget included an increase in overall budgetary appropriations of \$2.2 million. The primary reason for the upward revision was due to emergency payments appropriated the Marshalls Energy Company, Inc. in order to assist in the payment of delinquent billings relating to fuel shipments.

#### CAPITAL ASSET AND DEBT ADMINISTRATION

#### **Capital Assets**

RepMar's investment in capital assets for its governmental activities as of September 30, 2006 amounted to \$146 million, net of accumulated depreciation of \$69.2 million, leaving a net book value of \$76.8 million. RepMar's capital assets include electrical and water infrastructure, roads and bridges, heavy equipment, ships, buildings, and various projects under construction. (See table below). This represents a net increase of \$7.1 million (or 10.2%) from fiscal year 2005, as restated.

RepMar's Capital Assets September 30, (net of depreciation)

Management's Discussion and Analysis Year Ended September 30, 2006

#### **Capital Assets, Continued**

Major capital asset additions for fiscal year 2006 were as follows:

- Construction by the Government of Japan of the Atama Memorial Hospital in Delap in the amount of \$4.5 million.
- Ongoing construction in progress of educational facilities in the amount of \$6.8 million.

Additional information on RepMar's capital assets can be found in note 5 to the financial statements.

#### **Long-term Debt**

The Government Borrowing Act of 1985 authorizes RepMar to borrow for such purposes as approved by the Nitijela. Since 1991 RepMar has entered into twelve separate loans with the Asian Development Bank (See table below). Long-term debt obligations decreased by \$0.1 million (or 0.1%) in fiscal year 2005, net of loan draw downs of \$0.1 million.

#### ECONOMIC FACTORS AND NEXT YEAR'S BUDGET AND RATES

Economic growth as measured by Gross Domestic Product (GDP) continued over fiscal year 2005 with modest GDP growth in fiscal year 2006 of 3.0%. This was driven predominantly by increased government capital expenditures. The Marshall Islands' economy is extremely vulnerable to external shocks because of its small and open nature and this was never more evident than during fiscal year 2006. The effect of increasing fuel prices placed stress on RepMar's budget not only in the transport and energy sectors but also on public sector enterprises, most notably the Marshalls Energy Company, Inc. (MEC). RepMar struggled to cope with these shocks despite continued inflows through Compact revenues. Revenue performance lagged mainly due to high fuel prices and a drop in fishing license permits, with import taxes and fishing license revenues falling short of anticipated amounts by \$912,000 and \$880,000, respectively. Fuel tax revenues were also expected to increase, however, due to MEC's problems with securing fuel supplies and the subsequent lack of fishing vessels visiting the Marshall Islands to buy fuel, anticipated fuel tax revenues fell short by \$906,000. These shortfalls were partially offset by a one-time cash transfer in from the Intergenerational Trust Fund. Despite these problems, the impacts of the flow-on effects of Compact revenues continued to support the economy.

Although employment has grown considerably since the late 1990s, overall employment has fallen over the past two fiscal years, particularly in fiscal year 2005 with the closure of the PMOP fish loining plant. However, this trend is expected to reverse with the anticipated reopening of the loining plant in late 2007. Under new management and with private investment that will double production capacity, it is anticipated that the new plant will employ up to 500 workers.

For fiscal year 2007, the budget approved by the Nitijela continues RepMar's focus on the education and health sectors, with \$39.4 million and \$23.2 million, respectively, of the \$124.6 million budget designated to fund these priority areas, including their infrastructure needs. Compact revenues for fiscal year 2007 have been directed solely to fund these priority areas. With an educated and healthy workforce and a stable macroeconomic environment, RepMar is endeavoring to set a strong base for private sector growth. With improvements in the policy environment such as secured transactions, labor and immigration laws, and review of the land registration process, RepMar is hopeful that the ground work is set to entice greater private investment. This is already reflected by the reopening of the fish loining plant, the commencement of direct charter flights between Tokyo and Majuro by Japan Airlines providing a huge boost to the local tourism industry, and the establishment of the Marshall Islands Shipping Corporation with a private sector board proving a more reliable and cost effective inter-island shipping service.

#### CONTACTING REPMAR'S FINANCIAL MANAGEMENT

This financial report is designed to provide our citizens, taxpayers, customers and investors and creditors a general overview of RepMar's finances and to demonstrate its accountability for the money it receives. If you have questions about this report or need additional financial information, contact the Secretary of Finance, P.O. Box D, Majuro, MH 96960.

Reconciliation of the Statement of Revenues, Expenditures, and Changes in Fund Balances of Governmental Funds to the Statement of Activities

Year ended September 30, 2006

Amounts reported for governmental activities in the statement of activities on page 13 are different because:

Net change in fund balances - total governmental funds from page 15	\$	6,958,721
Governmental funds report capital outlays as expenditures. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. This is the amount by which capital outlays exceeded depreciation in the current period, including increases to construction in progress		7,136,711
Revenues in the statement of activities that do not provide current financial resources are not reported as revenues in the funds		502,836
The issuance of long-term debt (e.g. bonds, leases) provides current financial resources to governmental funds, while the repayment of principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction has any effect on net assets. This amount is the net effect of these differences in the treatment of long - term debt and related items		(87,674)
Some expenses reported in the statement of activities do not require the use of current financial resources and therefore, are not reported as expenditures in governmental funds. These expenses include accrued annual leave and interest payable that are reported in the statement of activities, but not in funds	_	(338,552)

Notes to Financial Statements September 30, 2006

#### (1) Summary of Significant Accounting Policies

The accompanying financial statements of the Republic of the Marshall Islands (RepMar) have been prepared in accordance with accounting principles generally accepted in the United States of America (GAAP). The Governmental Accounting Standards Board (GASB) is the recognized standard-setting body for establishing governmental accounting and financial reporting principles. The more significant of RepMar's accounting policies are described below.

#### A. Reporting Entity

The Government of RepMar is a constitutional government comprised of three branches: the Legislative Branch (the Nitijela), consisting of 33 members elected for a term of four years; the Executive Branch, consisting of the Cabinet; and the Judiciary Branch made up of the High Court, the Supreme Court, and the Traditional Rights Court that advises the High Court on matters concerning customary law and traditional practice. The Nitijela elects one of its members at its first session following an election to serve as President. The President, in turn, appoints six to ten members of the Nitijela to serve as Ministers who collectively comprise the Cabinet.

For financial reporting purposes, RepMar has included all funds, organizations, agencies, boards, commissions and institutions. RepMar has also considered all potential component units for which it is financially accountable as well as other entities for which the nature and significance of their relationship with RepMar are such that exclusion would cause RepMar's financial statements to be misleading or incomplete. The criteria to be considered in determining financial accountability include whether RepMar, as the primary government, has appointed a voting majority of an organization's governing body and either has the ability to impose its will on that organization or there is potential for the organization to provide specific financial benefits to or impose specific financial burdens on RepMar. Financial accountability also exists if an organization is determined to be fiscally dependent on the primary government, although the primary government does not appoint a voting majority of the organization's governing board.

Each blended and discretely presented component unit of RepMar has a September 30 year-end except for the Four-Atoll Medical Fund, which has a December 31 year-end. The Ministry of Education Headstart Program, which was previously reported, had a November 30 year-end. Effective October 1, 2005, the operations of this component unit reverted back to the Ministry of Education and is accounted for within the Compact Sector Grants Fund.

Once financial accountability has been determined for a potential component unit, that component unit is either blended into the primary government or discretely presented from the primary government. Potential component units that do not meet the financial accountability criteria, but where a voting majority of the governing board is appointed by RepMar, are deemed to be related organizations. The nature and relationship of RepMar's component units and related organizations are disclosed in the following section.

Blended component units are entities that are legally separate from RepMar, but are so related to RepMar that they are, in substance, the same as RepMar or entities providing services entirely or almost entirely to RepMar. The net assets and results of operations of the following legally separate entities are presented as part of RepMar's operations:

#### i. Blended Component Units

The following Component Units are blended within the Primary Government:

Four Atoll Medical Fund, a Governmental Fund Type - Special Revenue Fund. This fund accounts for transactions from the distribution of annual proceeds from the Nuclear Claims Trust Fund.

Marshall Islands Scholarship Grant and Loan Board, a Governmental Fund Type - Special Revenue Fund. This fund was established under Public Law No. 1979-19 to account for all disbursements of scholarship funds and is governed by a seven-member Board appointed by the Cabinet of RepMar.

Health Care Revenue Fund, a Governmental Fund Type - Special Revenue Fund. This fund was established under Public Law No. 1989-59 within the Ministry of Health and Environment to control the expenditure of funds for health care related services.

Marshall Islands Health Fund, a Governmental Fund Type - Special Revenue Fund. This fund was established under Public Law No. 1990-75, as amended by Public Law Nos. 2001-31 and 2001-35, to account for the operations of the Basic and Supplemental Health Funds delivering comprehensive medical care.

Nuclear Claims Tribunal, a Governmental Fund Type - Special Revenue Fund. This fund was established to render final determination upon claims arising as a result of the Nuclear Testing Program, and disputes arising from distributions made under the (Compact of Free Association) Section 177 Agreement.

Marshall Islands Social Security Administration, a Fiduciary Fund Type - Private Purpose Trust Fund. This fund was established to provide a financially sound social security system with pension benefits and early retirement.

#### ii. Discretely Presented Component Units

Discretely presented component units are entities which are legally separate from RepMar, but are financially accountable to RepMar, or whose relationships with RepMar are such that exclusion would cause RepMar's basic financial statements to be misleading or incomplete. The component units' column of the basic financial statements includes the financial data of the following major component units:

Marshalls Energy Company, Inc. (MEC): MEC was granted a corporate charter by the Cabinet of RepMar on February 2, 1984 to engage in the business of generating and transmitting electricity, and the import and marketing of petroleum products. MEC is governed by a seven-member Board of Directors appointed by the Cabinet of RepMar.

#### ii. Discretely Presented Component Units, Continued

Marshall Islands Development Bank (MIDB): MIDB was established under Public Law No. 1988-1 to promote the development and expansion of the economy of the Marshall Islands and is governed by a seven-member Board of Directors appointed by the Cabinet. MIDB has received funds under Sections 111 and 211 of the Compact of Free Association and funds from the U.S. Department of Agriculture under the Rural Housing and Community Development Service Housing Preservation Grant.

Marshall Islands National Telecommunications Authority (MINTA): MINTA was incorporated under Public Law No. 1990-105 to engage in the business of providing local and international telecommunication services. MINTA is governed by a seven-member Board of Directors elected by a majority vote of its shareholders.

RMI Ports Authority (RMIPA): RMIPA was incorporated under Public Law No. 2003-81 to engage in the operation and maintenance of commercial port facilities in the Marshall Islands. RMIPA is governed by a seven-member Board of Directors appointed by the President upon the approval of the Cabinet of RepMar.

In addition, the component units' column of the basic financial statements includes the financial data of the following nonmajor component units: Air Marshall Islands, Inc., College of the Marshall Islands, Majuro Resort, Inc., Majuro Water and Sewer Company, Inc., Marshall Islands Marine Resources Authority, Marshall Islands Visitors Authority, RMI Environmental Protection Authority, and Tobolar Copra Processing Plant, Inc.

RepMar's component units, departments, and funds that are separately audited issue their own financial statements. These statements may be obtained by directly contacting the various entities or obtaining them directly from the Office of the Auditor-General:

P.O. Box 245 Majuro, Marshall Islands 96960

#### iii. Related Organizations

RepMar is responsible for appointing voting members to the governing boards of the following legally separate organizations, but RepMar's financial accountability for these organizations does not extend beyond making the appointments. Therefore, the financial data of these entities are excluded from RepMar's financial statements. Those organizations are Alele Museum, Inc. and the Republic of the Marshall Islands Private Industry Council, Inc.

#### iv. Omitted Governmental Funds

The following funds are considered to be nonmajor governmental funds of RepMar but are not included in the accompanying basic financial statements due to absence of account balances and financial activities. Accordingly, the omission of these funds is not considered material to either the nonmajor governmental funds or the governmental activities reporting units:

Rehabilitation Revolving Fund: This fund was established under Public Law No. 1984-8 to account for all monies received for the rehabilitation of patients at the Majuro Hospital Rehabilitation Center.

Outer Islands Copra Boat Building Fund: This fund was established under Public Law No. 1992-34 to account for all monies received for the construction and maintenance of outer island copra boats.

Government Maintenance Fund: This fund was established under Public Law No. 1988-34 to account for all monies received from renting and maintenance services performed by the Ministry of Public Works Central Government Maintenance Agency.

Seaport Trust Fund: This fund was established under Public Law No. 1983-11 to account for all monies received for the development and improvement of seaport facilities and navigational aids.

Communication Regulation Fund: This fund was established under Public Law No. 1993-42 to account for all monies received for the specific purpose of regulating radio communication activities in the Marshall Islands.

Historic Preservation Fund: This fund was established under Public Law No. 1991-111 to account for all monies received by the Historic Preservation Office.

Council of Churches Fund: This fund was established under Public Law No. 1991-124 to account for all monies received for the specific purpose of providing educational, spiritual, health and recreational needs of the children of the Marshall Islands.

Marshallese Language Trust Fund: This fund was established under Public Law No. 1983-34 to account for all monies received for the specific purpose of encouraging the preservation, development and use of the Marshallese language.

#### B. Government-Wide Financial Statements

The Statement of Net Assets and the Statement of Activities report financial information on all of the non-fiduciary activities of the primary government and its component units. For the most part, the effect of interfund activity has been eliminated from these statements except for other charges between the primary government and the discretely presented component units. Elimination of these charges would distort the direct costs and program revenues reported for the various functions concerned.

Notes to Financial Statements September 30, 2006

#### (1) Summary of Significant Accounting Policies, Continued

#### B. Government-Wide Financial Statements, Continued

Primary government activities are defined as either governmental or business-type activities. Governmental activities, which normally are supported by taxes, intergovernmental revenues and other non-exchange revenues, are reported separately from business-type activities, which rely to a significant extent on fees charged to external parties for goods or services. As such, business-type activities account for operations similarly to a for-profit business. Likewise, the primary government is reported separately from certain legally separate component units for which the primary government is financially accountable. Discretely presented component unit activities are presented with their business-type focus.

The Statement of Net Assets presents all of the reporting entity's non-fiduciary assets and liabilities, with the difference reported as net assets. Net assets are reported in three categories:

- Invested in capital assets, net of related debt consists of capital assets, net of accumulated depreciation and reduced by outstanding balances for bonds, notes and other debt that are attributed to the acquisition, construction or improvement of those assets.
- Restricted net assets nonexpendable consists of permanent funds in which donors or other outside sources have stipulated that the principal is to be maintained inviolate and in perpetuity, and invested for the purpose of producing present and future income, which may either be expended or added to the principal.
- Restricted net assets expendable consists of resources in which RepMar is legally or contractually obligated to spend resources in accordance with restrictions either externally imposed by creditors, grantors, contributors, and the like, or imposed by law.
- Unrestricted net assets consist of net assets, which do not meet the definition of the two preceding categories. Unrestricted net assets often are designated, (for example, internally restricted), to indicate that management does not consider them to be available for general operations.

The government-wide Statement of Net Assets reports \$48,637,785 of restricted net assets, of which \$4,482,907 is restricted by enabling legislation.

The Statement of Activities demonstrates the degree to which the direct expenses of given functions or segments are offset by program revenues. Direct expenses are those that are clearly identifiable within a specific function or segment. Program revenues include charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges that are restricted to meeting the operational or capital requirements of a particular function. Taxes and other items not meeting the definition of program revenues are, instead, reported as general revenue.

#### C. Fund Financial Statements

The fund financial statements present a balance sheet and a statement of revenues, expenditures, and changes in fund balances for its major and aggregated non-major funds.

Notes to Financial Statements September 30, 2006

#### (1) Summary of Significant Accounting Policies, Continued

#### C. Fund Financial Statements, Continued

Separate financial statements are provided for governmental funds and fiduciary funds even though the latter are excluded from the government-wide financial statements. Major individual governmental funds are reported as separate columns in the fund financial statements pursuant to GASB reporting standards, with nonmajor governmental funds being combined into a single column.

RepMar reports its financial position and results of operations in funds, each of which is considered a separate accounting entity. The operations of each fund are accounted for with a set of self-balancing accounts that comprise its assets, liabilities, fund equity, revenues and expenditures/expenses. Transactions between funds within a fund type, if any, have not been eliminated.

#### D. Measurement Focus and Basis of Accounting

The government-wide financial statements are reported using the economic resources management focus and the accrual basis of accounting, as are the proprietary fund and fiduciary fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements account for the general governmental activities of RepMar and are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as they become susceptible to accrual; generally when they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, RepMar considers revenues to be available if they are collected within 90 days of the end of the current fiscal period.

Significant revenues susceptible to accrual include income and gross revenue taxes, federal grants, federal reimbursements and other reimbursements for use of materials and services. Miscellaneous revenues from other financing sources are recognized when received in cash because they are generally not measurable until actually received. Investment earnings are recorded as earned, since they are both measurable and available. Investments and related investment earnings are recorded at fair value. Fair value is the amount at which a financial instrument could be exchanged in a current transaction between willing parties, other than in a forced or liquidation sale. Expenditures generally are recorded in the period in which the related fund liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due.

Amounts reported as program revenue include 1) charges to customers or applicants for goods, services, or privileges provided, 2) operating grants and contributions, and 3) capital grants and contributions. Internally dedicated resources are reported as general revenues rather than as program revenues. General revenue is derived from taxation, investment income and other fees that are not allocated to specific programs.

#### (1) Summary of Significant Accounting Policies, Continued

#### D. Measurement Focus and Basis of Accounting, Continued

Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. All other revenues are reported as nonoperating. Operating expenses includes the cost of sales and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

RepMar reports the following fund types:

#### 1. Governmental Fund Types

#### i. General Fund

This fund is the primary operating fund of RepMar. It is used to account for all governmental transactions, except those required to be accounted for in another fund.

#### ii. Special Revenue Funds

These funds account for specific revenue sources that have been aggregated according to enabling legislation to support specific governmental activities.

#### iii. Capital Projects Funds

These funds account for the acquisition or construction of major RepMar capital facilities financed primarily from loans and federal reimbursements.

#### iv. Permanent Funds

This fund accounts for resources that are legally restricted to the extent that only earnings, and not principal, may be used to support programs for the benefit of the government.

#### 2. Fiduciary Fund Types

#### i. Private Purpose Funds

These funds are used to account for resources held in trust under which principal and income benefit certain individuals.

These include funds held in trust by the Marshall Islands Social Security Administration (MISSA) for the beneficiaries of the MISSA Retirement Fund; funds received under the Interim Use Agreement for the benefit of Kwajalein landowners; and funds received under Section 177 of the Compact of Free Association for the benefit of victims related to the United States Nuclear Testing Program.

#### ii. Agency Funds

This fund is used to report resources held by the primary government relating to unclaimed property in a purely custodial capacity.

GASB Statement No. 34, Basic Financial Statements - and Management's Discussion and Analysis - For State and Local Governments, as amended by GASB Statement No. 37, Basic Financial Statements - and Management's Discussion and Analysis - Omnibus, sets forth minimum criteria (percentage of the assets, liabilities, revenues or expenditures/expenses for either fund category or the governmental and enterprise combined) for the determination of major funds. RepMar elected to add certain other major funds that had specific public interest. Major individual governmental funds are reported as separate columns in the fund financial statements. The nonmajor funds are combined in a column in the fund financial statements and detailed in the combining statements. RepMar reports the following major funds:

U.S. Federal Grants Fund, a Governmental Fund Type - Special Revenue Fund. This fund accounts for all financial transactions that are subgranted to RepMar, as well as other direct federal grants that RepMar received from the United States government.

Compact Sector Grants Fund, a Governmental Fund Type - Special Revenue Fund. This fund accounts for United States Congress appropriations under United States Public Law 99-239, as amended, Title II, Article I, Section 211(a) and approved by Nitijela resolution 123 to promote economic advancement and budgetary self-reliance. These appropriations are to be used for assistance in education, health care, the environment, public sector capacity building, and private sector development, or for other areas as mutually agreed, with priorities in the education and health care sectors.

Compact Trust Fund, a Governmental Fund Type - Permanent Fund. This fund accounts for RepMar's contributions to the Trust Fund established in accordance with Section 216 of the Compact of Free Association, as amended, to provide for an additional source of revenue for the government budget that will be needed to substitute for the absence of Compact of Free Association funding.

#### E. Reporting Standards

As allowed by GASB Statement No. 20, Accounting and Financial Reporting for Proprietary Funds and Other Governmental Entities that Use Proprietary Fund Accounting, RepMar's proprietary funds follow all GASB pronouncements and those Financial Accounting Standards Board Statements and Interpretations, Accounting Principles Board Opinions, and Accounting Research Bulletins that were issued on or before November 30, 1989, except those that conflict with a GASB pronouncement.

#### Notes to Financial Statements September 30, 2006

#### (1) Summary of Significant Accounting Policies, Continued

#### F. Cash and Cash Equivalents and Time Certificates of Deposit

RepMar pools cash resources of its various funds in order to facilitate the management of cash. Unless otherwise required by law, interest income received on pooled cash accrues to the General Fund. Cash and cash equivalents applicable to a particular fund are readily identifiable. Cash and cash equivalents include cash on hand, demand deposits, and short-term investments in U.S. Treasury obligations with a maturity date within three months of the date acquired by RepMar. Deposits maintained in time certificates of deposit with original maturity dates greater than three months are separately classified on the statement of net assets/balance sheet.

#### G. Investments

Investments and related investment earnings are recorded at fair value. Fair value is the amount at which a financial instrument could be exchanged in a current transaction between willing parties, other than in a forced or liquidation sale.

#### H. Receivables

In general, tax revenue is recognized on the government-wide statements, when assessed or levied and on the governmental fund financial statements to the extent that it is both measurable and available. Receivables are stated net of estimated allowances for uncollectible accounts. Reimbursements due to RepMar for expenditures on federally funded reimbursement and grant programs are reported as "receivables from federal agencies".

Receivables of the primary government and the discretely presented component units are primarily due from businesses and individuals residing on the islands of Majuro and Ebeye. The allowance for uncollectibles primarily represents estimated allowances for uncollectible amounts that are determined based upon past collection experience and aging of the accounts.

#### I. <u>Inventories and Prepaid Items</u>

Inventories of the discretely presented component units are valued at the lower of cost (FIFO) or market.

Certain payments made to vendors or persons for services reflect costs applicable to future accounting periods and are recorded as prepaid items in both government-wide and fund financial statements.

#### J. <u>Interfund Receivables/Payables</u>

During the course of its operations, RepMar records transactions between individual funds for goods provided or services rendered. Receivables and payables resulting from transactions between funds are classified as "due from other funds" or "due to other funds" on the governmental fund balance sheet.

These balances result from the time lag between the dates that 1) interfund goods and services are provided or reimbursable expenditures occur, 2) transactions are recorded in the accounting system, and 3) payments between funds are made, and are scheduled to be collected in the subsequent year.

#### Notes to Financial Statements September 30, 2006

#### (1) Summary of Significant Accounting Policies, Continued

#### K. Restricted Assets

Certain assets of the primary government are classified as restricted assets because their use is completely restricted through loan agreements or enabling legislation. Specifically, RepMar has collateralized a credit card facility with a time certificate of deposit of \$55,000. Furthermore, cash and cash equivalents and investments, totaling \$15,175,413 and \$41,627,147, respectively, are restricted in that they are not available to be used in current operations.

#### L. Capital Assets

Capital assets, which include property, plant, equipment and infrastructure assets (e.g. roads, bridges, docks, water and sewer lines, water catchments, and other similar items), are reported in the governmental activity column of the government-wide financial statements. Such assets, whether purchased or constructed, are recorded at historical cost or estimated historical cost. Donated capital assets are recorded at estimated fair market value at the date of donation.

RepMar currently holds no title to land. Singular pieces of machinery and equipment that equal or exceed \$50,000 are capitalized. Buildings and infrastructure projects with a cost that equals or exceeds \$100,000 are capitalized. The costs of normal maintenance and repairs that do not add to the value of assets or materially extend asset lives are not capitalized.

Capital assets of the primary government and the component units are depreciated using the straight-line method over their estimated useful lives, with a full year's depreciation charged in the year of acquisition and disposal, regardless of date.

#### M. Interfund/Intrafund Transactions

As a general rule, the effect of interfund activity has been eliminated in the government-wide statements. Exceptions to this rule are: 1) activities between funds reported as governmental activities and funds reported as business-type activities and 2) activities between funds that are reported in different functional categories in either the governmental or business-type activities column. Elimination of these activities would distort the direct costs and program revenues for the functions concerned.

#### N. Deferred Revenue

In the government-wide financial statements, deferred revenue is recognized when cash, receivables or other assets are recorded prior to their being earned. In the governmental fund financial statements deferred revenue represents monies received or revenues accrued which have not been earned or do not meet the "available" criterion for revenue recognition under the modified accrual basis of accounting. The deferred revenue in the governmental fund types has primarily resulted as federal funds are received in advance of eligible expenditures.

#### (1) Summary of Significant Accounting Policies, Continued

#### O. <u>Compensated Absences</u>

It is the government's policy to permit employees to accumulate earned but unused vacation and sick pay benefits. There is no liability for unpaid accumulated sick leave since the government does not have a policy to pay any amounts when employees separate from service with the government. All vacation pay is accrued when incurred in the government-wide and fiduciary fund financial statements. A liability for these amounts is reported in governmental funds only if they have matured, for example, as a result of employee resignations and retirements. Annual leave accumulates at the rate of one working day per bi-weekly pay period.

#### P. Fund Equity

In the fund financial statements, governmental funds report reservations of fund balance for amounts that are not available for appropriation or are legally restricted by outside parties for use for a specific purpose. Designations of fund balance represent tentative management plans that are subject to change.

The unreserved fund balances for the governmental funds represent the amount available for budgeting future operations. The reserve for related assets as of September 30, 2006, is represented by the following assets:

#### Q. Risk Financing

RepMar is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. It is the policy of the primary government not to purchase commercial insurance for the risks of loss to which it is exposed. Instead, RepMar management believes it is more economical to manage its risks internally. In the event of claim settlements and judgments, RepMar reports all of its risk management activities in its General Fund. Claims expenditures and liabilities are reported when it is probable that a loss has occurred and the amount of that loss can be reasonably estimated. These losses include an estimate of claims that have been incurred but not reported. No losses have occurred as a result of these risks in any of the past three fiscal years.

#### R. New Accounting Standards

During fiscal year 2006, RepMar implemented the following pronouncements:

- GASB Statement No. 44, Economic Condition Reporting: The Statistical Section, an amendment to NCGA Statement 1, which improves the understandability and usefulness of statistical section information and adds information from the new financial reporting model for state and local governments required by GASB Statement No. 34.
- GASB Statement No. 47, Accounting for Termination Benefits, which establishes guidance for state and local governmental employers on accounting and financial reporting for termination benefits. These benefits include incentives for voluntary terminations (e.g., early retirement window programs) and severance payments with respect to involuntary terminations.
- GASB Technical Bulletin No. 2004-2, Recognition of Pension and Other Postemployment Benefit Expenditures/Expense and Liabilities by Cost-Sharing Employers, which clarifies the requirements of GASB Statement Nos. 27 and 45 for recognition of pension and other postemployment benefit expenditures/expense and liabilities by cost-sharing employers.

The implementation of these pronouncements did not have a material impact on the accompanying financial statements.

In April 2004, GASB issued Statement No. 43, Financial Reporting for Postemployment Benefit Plans Other Than Pension Plans. GASB Statement No. 43 establishes uniform financial reporting for other postemployment benefit plans by state and local governments. The provisions of this Statement are effective for periods beginning after December 15, 2007. Management does not believe that the implementation of this statement will have a material effect on the financial statements of RepMar.

In June 2004, GASB issued Statement No. 45, Accounting and Financial Reporting by Employers for Postemployment Benefits Other Than Pensions. GASB Statement No. 45 establishes standards for the measurement, recognition, and display of other post employment benefits expense/expenditures and related liabilities, note disclosures, and, if applicable, required supplementary information in the financial reports of state and local governmental employers. The provisions of this Statement are effective for periods beginning after December 15, 2008. Management does not believe that the implementation of this statement will have a material effect on the financial statements of RepMar.

In September 2006, GASB issued Statement No. 48, Sales and Pledges of Receivables and Future Revenues and Intra-Entity Transfer of Assets and Future Revenues. GASB Statement No. 48 establishes criteria that governments will use to ascertain whether certain transactions should be regarded as a sale or a collateralized borrowing. The statement also includes a provision that stipulates that governments should not revalue assets that are transferred between financial reporting entity components. The provisions of this Statement are effective for periods beginning after December 15, 2006. Management does not believe that the implementation of this statement will have a material effect on the financial statements of RepMar.

#### S. Reclassifications

Due to the provisions of GASB Statement No. 34, major governmental funds presented in a previous year may not be major funds presented in the current year.

#### T. Estimates

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues, expenditures and expenses during the reporting period. Actual results could differ from those estimates.

#### (2) Deposits and Investments

GASB Statement No. 40 addresses common deposit and investment risks related to credit risk, concentration of credit risk, interest rate risk and foreign currency risk. As an element of interest rate risk, disclosure is required of investments that have fair values that are highly sensitive to changes in interest rates. GASB Statement No. 40 also requires disclosure of formal policies related to deposit and investment risks.

The deposit and investment policies of RepMar are governed by 3 MIRC 7, *Investment of Public Funds*, and 11 MIRC 1, *Financial Management*, in conjunction with various trust agreements. Under 3 MIRC 7, the Secretary of Finance, subject to approval of Cabinet, may transfer specific amounts of money from the General Fund, and invest such money in financial institution investment accounts, provided however that:

- (a) Public monies shall not be deposited with any financial institution that is not a member of the Federal Deposit Insurance Corporation (FDIC) of the United States or the Federal Savings and Loan Insurance Corporation (FSLIC) of the United States, unless the Secretary of Finance is satisfied, on the advice of the Banking Commissioner, that a financial institution (although not a member of the FDIC or FSLIC), owns sufficient assets to cover the total amount of the investment;
- (b) The demand deposit account shall be continuously maintained to cover not less than seventyfive percent of the cash expenditures projected to be expended over the next succeeding ninety day period;
- (c) All deposits, accounts and funds maintained pursuant to this Act shall be subordinate deposits, accounts and funds of the General Fund; and
- (d) No withdrawal of monies shall be made out of or charged against time or savings deposits, accounts or funds maintained pursuant to this Act except to transfer funds into the demand deposit account of the General Fund. All expenditures shall be made out of or charged against the demand deposit account of the General Fund only.

# Notes to Financial Statements September 30, 2006

# (2) Deposits and Investments, Continued

Under 11 MIRC 1, the Secretary of Finance may invest any monies of RepMar, which:

- (a) Are funds that have not been appropriated by Act;
- (b) In his judgment are in excess of the amounts necessary for meeting the immediate requirements of RepMar; and
- (c) In his judgment will not impede or hamper the necessary financial operations of RepMar.

Any of such investments shall be due to mature no later than one (1) year from the date of investment, unless otherwise directed and authorized by the Cabinet for a longer period. Income derived from investments may be reinvested, unless the Cabinet decides otherwise, at the discretion of the Secretary of Finance and shall be recognized as revenue in accordance with generally accepted accounting principles. Long-term investments shall be in time certificates of deposits, bonds, notes, prime commercial paper or other low-risk investments.

#### A. Deposits

GASB Statement No. 3 previously required government entities to present deposit risks in terms of whether the deposits fell into the following categories:

- Category 1 Deposits that are federally insured or collateralized with securities held by RepMar or its agent in RepMar's name;
- Category 2 Deposits that are uninsured but fully collateralized with securities held by the pledging financial institution's trust department or agent in RepMar's name; or
- Category 3 Deposits that are collateralized with securities held by the pledging financial institution's trust department or agent but not in RepMar's name and non-collateralized deposits.

GASB Statement No. 40 amended GASB Statement No. 3 to in effect eliminate disclosure for deposits falling into categories 1 and 2 but retained disclosures for deposits falling under category 3. Category 3 deposits are those deposits that have exposure to custodial credit risk. Custodial credit risk is the risk that in the event of a bank failure, RepMar's deposits may not be returned to it. Such deposits are not covered by depository insurance and are either uncollateralized, or collateralized with securities held by the pledging financial institution or held by the pledging financial institution but not in the depositor-government's name. RepMar does not have a deposit policy for custodial credit risk.

As of September 30, 2006, the carrying amount of the primary government's total cash and cash equivalents and time certificates of deposit were \$19,529,672 and the corresponding bank balances were \$19,954,417. Of the bank balance amounts, \$19,003,366 is maintained in financial institutions subject to Federal Deposit Insurance Corporation (FDIC) insurance. As of September 30, 2006, bank deposits in the amount of \$666,296 were FDIC insured. RepMar does not require collateralization of its cash deposits; therefore, deposit levels in excess of FDIC insurance coverage are uncollateralized. Accordingly, these deposits are exposed to custodial credit risk.

# Notes to Financial Statements September 30, 2006

# A. <u>Deposits, Continued</u>

As of September 30, 2006, the carrying amount of the fiduciary fund's total cash and cash equivalents and time certificates of deposit was \$5,535,224 and the corresponding bank balances were \$5,891,752. Of the bank balance amounts, \$57,242 is maintained in financial institutions subject to FDIC insurance. RepMar does not require collateralization of its cash deposits; therefore, deposit levels in excess of FDIC insurance coverage are uncollateralized. Accordingly, these deposits are exposed to custodial credit risk.

As of September 30, 2006, the carrying amount of the discretely presented component units' total cash and cash equivalents and time certificates of deposit were \$15,595,979 and the corresponding bank balances were \$16,043,292. Of the bank balance amounts, \$7,451,795 is maintained in financial institutions subject to FDIC insurance. As of September 30, 2006, bank deposits in the amount of \$1,076,331 were FDIC insured. The component units do not require collateralization of their cash deposits; therefore, deposit levels in excess of FDIC insurance coverage are uncollateralized. Accordingly, these deposits are exposed to custodial credit risk.

#### B. Investments

GASB Statement No. 3 previously required government entities to present investment risks in terms of whether the investments fell into the following categories:

- Category 1 Investments that are insured or registered, or securities held by RepMar or its agent in RepMar's name;
- Category 2 Investments that are uninsured and unregistered for which the securities are held by the counterparty's trust department or agent in RepMar's name; or
- Category 3 Investments that are uninsured and unregistered, with securities held by the counterparty, or by its trust department or agent but not in RepMar's name.

GASB Statement No. 40 amended GASB Statement No. 3 to in effect eliminate disclosure for investments falling into categories 1 and 2, and provided for disclosure requirements addressing other common risks of investments such as credit risk, interest rate risk, concentration of credit risk, and foreign currency risk. GASB Statement No. 40 did retain and expand the element of custodial credit risk in GASB Statement No. 3.

Investments of the primary government as of September 30, 2006, are as follows:

Compact Trust Fund: Money market funds Common equity securities

\$ 155,888 41,471,259

\$ 41,627,147

Additionally, as of September 30, 2006, the MIDA Fund holds approximately 4% of the shares of Pacific Forum Lines in the amount of \$318,630. As the fair market value of this investment is not readily available, such has been recorded at cost.

#### B. Investments, Continued

Custodial credit risk for investments is the risk that in the event of the failure of the counterparty to the transaction, RepMar will not be able to recover the value of investment or collateral securities that are in the possession of an outside party. RepMar's investments are held and administered by trustees in accordance with various trustee agreements. Based on negotiated trust and custody contracts, all of these investments were held in RepMar's name by RepMar's custodial financial institutions at September 30, 2006.

Credit risk for investments is the risk that an issuer or other counterparty to an investment will not fulfill its obligations.

Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of debt instruments. RepMar does not have a formal investment policy that limits investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates.

Concentration of credit risk for investments is the risk of loss attributed to the magnitude of an entity's investment in a single issuer. GASB Statement No. 40 requires disclosure by issuer and amount of investments in any one issuer that represents five percent (5%) or more of total investments for RepMar. As of September 30, 2006, there were no investments in any one issuer that exceeded 5% of total investments.

Investments of the fiduciary funds as of September 30, 2006, are as follows:

Marshall Islands Social Security Administration (MISSA):

Money market funds Common equity securities Mutual funds	\$ 112,795 8,494,606 38,623,258
	\$ 47,230,659

Additionally, as of September 30, 2006, the MISSA holds approximately 31% of the shares of Bank of Marshall Islands, totaling \$6,275,464, which is accounted for under the equity method.

No investment under this heading shall exceed five percent of the market value of the Fund or ten percent of the outstanding value of the issue at the time of purchase.
- (iii)Preferred and common stocks Shares of preferred or common stocks of any corporation created or existing under the laws of RepMar or under the laws of the United States or any state, territory or commonwealth thereof provided that the purchase of such shares shall be considered reasonable and prudent by MISSA's investment advisor at the time of purchase, that not more than fifteen percent (15%) percent of the market value of the Fund shall be invested in the stock of any one corporation, and that not more than twenty-five percent (25%) percent of the market value of the Fund shall be invested in any one industry group.
- (iv)Insurance company obligations Contracts and agreements supplemental thereto providing for participation in one or more accounts of a life insurance company authorized to do business in the Republic or in any state, territory or commonwealth of the United States provided that the total market value of these investments at no time shall exceed ten percent (10%) of all investments of the Fund.

The deposit and investment policies of the NCTF are governed by an agreement between the Government of the United States and RepMar for the implementation of Section 177 of the Compact of Free Association. Generally, the Fund shall be invested in bonds, notes and other instruments of investment grade and of United States nationality, including both debt and equity issues, common or preferred stocks, money market funds, certificates of indebtedness and mutual funds.

MISSA and NCTF investments are held and administered by trustees in accordance with various trustee agreements. Based on negotiated trust and custody contracts, all of these investments were held respectively in the name of MISSA and NCTF by their custodial financial institutions at September 30, 2006.

As of September 30, 2006, the NCTF's investments in debt securities were as follows:

# Notes to Financial Statements September 30, 2006

# (7) Operating Transfers In/Out, Continued

The difference between transfers out and the corresponding transfers in relates to timing differences with the inclusion of the financial statements of the Four-Atoll Medical Fund, a nonmajor governmental fund, with a year end of December 31, 2006. During the year ended September 30, 2006, the U.S. Federal Grants Fund recorded a transfer out to the Four-Atoll Medical Fund in the amount of \$1,314,666 whereas the Four-Atoll Medical Fund recorded a corresponding transfer in of \$1,478,288.

Transfers are used to 1) move revenues from the fund that enabling legislation or budget requires to collect them to the fund that enabling legislation or budget requires to expend them, 2) use unrestricted revenues collected in the General Fund to finance various programs accounted for in other funds in accordance with budgetary authorizations, and 3) record reductions in interfund loans for amounts that are not expected to be repaid.

During the year ended September 30, 2006, RepMar made a one-time transfer of \$2,003,060 from the Intergenerational Trust Fund to the General Fund (\$1,901,987) and the Compact Trust Fund (\$101,073) representing budgetary support for General Fund operations, and satisfaction of RepMar's contribution to the Trust Fund in accordance with Section 216 of the Compact of Free Association.

# (8) Contingencies

#### Sick Leave

It is the policy of RepMar to record expenditures for sick leave when leave is actually taken. Sick leave is compensated time for absence during working hours arising from employee illness or injury. The estimated accumulated amount of unused sick leave as of September 30, 2006 is \$8,303,372.

#### Insurance Coverage

RepMar does not maintain insurance coverage for a significant amount of fixed assets. In the event of a catastrophe, RepMar may be self-insured to a material extent.

#### Federal Grants

RepMar participates in a number of federally assisted grant programs and other various U.S. Department of the Interior grants. These programs are subject to financial and compliance audits to ascertain if Federal laws and guidelines have been followed. Cumulative questioned costs of \$5,735,163 relating to fiscal years 2004 through 2006 have been set forth in RepMar's Single Audit Report for the year ended September 30, 2006, including \$3,514,381 in questioned costs pertaining to subgrantees for which questioned costs remain unresolved for more than six months after issuance of their respective Single Audit reports. In addition, RepMar is considered to have responsibility for any questioned costs that may result from Single Audits of subgrantees who have not satisfied the audit requirements of OMB Circular A-133. The ultimate disposition of these questioned costs can be determined only by final action of the respective grantor agencies. Therefore, no provision for any liability that may result upon resolution of this matter has been made in the accompanying financial statements.

#### Nuclear Claims Trust Fund (NCTF)

Section 177(c) of the Compact of Free Association (the Compact) provides, on a one-time grant basis, the amount of \$150,000,000 to RepMar to be used to establish a trust fund from which annual distributions are to be made in accordance with Article II of the Agreement between the Government of the United States and RepMar for Implementation of Section 177 of the Compact (the Agreement). Pursuant to the Agreement, RepMar established the NCTF from which these distributions are made. Over a period of fifteen years, the Nuclear Claims Tribunal (NCT) received \$45,750,000 from the NCTF that was made available for whole or partial payment of monetary awards. During the year ended September 30, 2006, NCT received \$2,015,800 from the NCTF, which included funds to fund partial payment of monetary awards. As of September 30, 2006, NCT has committed to the distribution of monetary awards for personal injury claims of \$17,660,162 and of property damage claims of \$1,083,472,335, which will be paid out against the reserved fund balance and future sums that NCT expects to receive from the NCTF. The reserved fund balance of the NCTF is \$1,244,135 as of September 30, 2006. Accordingly, additional funds will have to be made available through future earnings of the funds invested in the NCTF after the end of the Compact or from a renegotiated financial settlement of damages with the United States.

# Compact Trust Fund

Section 216(a) of the Compact, as amended, provides for contributions from the United States into a trust fund established in accordance with the Agreement Between the Government of the United States of America and the Government of the Republic of the Marshall Islands Implementing Section 216 and Section 217 of the Compact, as Amended, Regarding a Trust Fund (Trust Fund Agreement). The contributions by the United States are conditioned upon RepMar contributing to the trust fund at least \$25 million on October 1, 2003, \$2.5 million prior to October 1, 2004, and a final \$2.5 million prior to October 1, 2005. As of September 30, 2006, RepMar has contributed the required amounts. The Trust Fund Agreement required the establishment of the "Trust Fund for the People of the Republic of the Marshall Islands" by the United States in consultation with RepMar; however, the trust fund was not established until September 2005. Prior to the establishment of the trust fund, the contributions provided by the United States and RepMar were deposited into a cash management account within the Intergenerational Trust Fund.

#### Intergenerational Trust Fund

RepMar maintains a deposit with the Marshall Islands Development Bank (MIDB) in the amount of \$5,669,213. Based on mutually agreed terms, the deposit accrues interest at the rate of 4% per annum and matures on May 8, 2018. In the event that RepMar redeems this deposit at an earlier date, receipt of funds may be dependent upon the underlying collectibility of loans issued by MIDB, as the Bank does not appear to have readily available cash reserves to meet early redemption. Furthermore, in the event that RepMar is unable to liquidate this deposit at an earlier date, such may be deemed to constitute a cash transfer out to MIDB.

# Marshalls Energy Company, Inc. (MEC)

MEC is currently in noncompliance with certain coverage ratio requirements relating to a loan agreement with the RUS. The mortgage notes have been unconditionally guaranteed by RepMar. RepMar may be liable for the debt service payments to RUS in the event of default by MEC.

# (8) Contingencies, Continued

#### Leases

RepMar enters into numerous leases with various landowners. The lease terms generally range from one to fifteen years. However, appropriations to fund these leases are made only on an annual basis. For fiscal year 2006, RepMar appropriated \$866,677 to fund such leases.

#### Coin Issue

RepMar authorized the issuance of certain commemorative coins that are represented to be the legal tender of the Republic of the Marshall Islands. Under the terms of the contract, if an owner of the coins presents them in the Republic of the Marshall Islands, the Government must redeem them for the face value. On October 28, 1998, the Cabinet of RepMar directed the Minister of Finance to terminate the contract.

#### (9) Commitments

RepMar has made the following commitments as of September 30, 2006:

- a) Guaranteed a bank debt of Tobolar Copra Processing Plant, Inc. (TCPPI) with a letter of guarantee. At September 30, 2006, TCPPI had guaranteed bank debt totaling \$647,220.
- b) Guaranteed a debt of Marshall Islands National Telecommunications Authority (MINTA) in respect of a loan from the United States Rural Utilities Service (RUS, formerly Rural Electrification Administration) with a letter of guarantee. At September 30, 2006, MINTA had guaranteed debt totaling \$14,847,297.
- c) Guaranteed a debt of Marshalls Energy Company, Inc. (MEC) in respect to a loan from the United States Rural Utilities Service (RUS) with a letter of guarantee. At September 30, 2006, MEC had guaranteed debt totaling \$8,903,916.
- d) RepMar has entered into lease agreements with certain landowners for the use of land situated at the Majuro international airport. The terms of the lease agreements are for a 25-year period commencing September 1, 1996. Annual lease rental commitments are \$305,613 per year.
- e) RepMar has issued a letter of guarantee in the amount of \$178,000 plus interest for the benefit of the Delap Assembly of God Church for a loan issued by Marshall Islands Development Bank.
- f) In accordance with Cabinet Minute C.M. 121 (2003), the Cabinet of RepMar has issued a government guarantee in the amount of \$5,000,000 for a loan obtained by the Marshall Islands Development Bank. At September 30, 2006, MIDB had guaranteed debt totaling \$3,200,000.

# (9) Commitments, Continued

- g) On February 19, 2004, the Cabinet of RepMar approved a joint venture Memorandum of Agreement with a local private corporation whereby RepMar granted and conveyed controlling ownership interest to the corporation of the hotel facility owned by Majuro Resort, Inc. On September 9, 2004, the Cabinet of RepMar approved the appointment of a Committee to re-visit the privatization of the hotel facility including obtaining an independent valuation of the property. As of September 30, 2006, no transfer in ownership has occurred.
- h) In accordance with Cabinet Minute C.M. 057 (2004), the Cabinet of RepMar has guaranteed a credit card facility with a time certificate of deposit totaling \$55,000.
- i) In accordance with Cabinet Minute C.M. 139 (2004), the Cabinet of RepMar has issued a government guarantee in the amount of \$800,000 for a loan obtained by Air Marshall Islands, Inc. (AMI). In accordance with Cabinet Minute C.M. 145 (2005), the government guarantee was increased by \$200,000. At September 30, 2006, AMI had guaranteed debt totaling \$748,826.
- j) In accordance with Cabinet Minute C.M. 163 (2005), the Cabinet of RepMar has issued a government guarantee in the amount of \$5,000,000 for a loan and line of credit facility obtained by MEC. At September 30, 2006, MEC had guaranteed debt totaling \$4,645,811.
- k) In accordance with Cabinet Minute C.M. 055 (2006), the Cabinet of RepMar has issued a government guarantee for and on behalf of MEC to a fuel supplier for amounts owing by MEC relating to the purchase of fuel products. At September 30, 2006, MEC had guaranteed debt totaling \$5,090,475.

#### (10) Individual Deficit Fund Balances or Deficit Retained Earnings

Specific individual funds which had significant individual deficit fund balances or retained earnings as at September 30, 2006, are as follows:

Major Governmental Funds

General Fund \$ 5,911,015

Nonmajor Component Units

Majuro Water and Sewer Company, Inc. \$ 788,726

# Notes to Financial Statements September 30, 2006

# (11) Subsequent Events

On November 6, 2006, the Nitijela of RepMar, in accordance with Public Law 2006-73, enacted legislation repealing the Marshall Islands Intergenerational Trust Fund Act of 1999. Accordingly, the assets and related fund balance within this fund were transferred to the General Fund.

On December 8, 2006, the Cabinet of RepMar, in accordance with Cabinet Minute C.M. 145 (2006), issued a government guarantee for and on behalf of the Marshalls Energy Company, Inc. (MEC) to a fuel supplier for amounts owing in the event of any shortfall on MEC's obligation to the fuel supplier.

On March 15, 2007, the Cabinet of RepMar, in accordance with Cabinet Minute C.M. 027(2007), approved a loan by the Marshall Islands Development Bank of \$600,000.

On April 18, 2007, the Cabinet of RepMar, in accordance with Cabinet Minute C.M. 048 (2007), authorized the collateralization of General Fund tax revenues for a \$12,000,000 loan obtained by the Marshalls Energy Company, Inc.

Notes to Required Supplementary Information - Budgetary Reporting September 30, 2006

# (1) Budgetary Information

The Secretary of Finance and the Chief Budget Officer present to the Cabinet, prior to September 30, proposed budget estimates for the fiscal year commencing October 1. The budget estimates include the overall and total proposed expenditures of RepMar and the means of financing those expenditures. The Cabinet reviews and approves these estimates making changes, as it deems appropriate. The Appropriation Committee of the Nitijela, during the second sitting of the regular session of the Nitijela, holds public hearings at which time Ministries and Offices are required to justify their budget estimates. During the second sitting of the Nitijela, an appropriation bill, as required by the Constitution, is introduced and budget estimates are then legally enacted by the Nitijela.

Formal budget integration is employed as a management control device during the year for all funds. The Cabinet has the authority to reprogram budgeted estimates in accordance with the Constitution. All annual appropriations lapse at fiscal year end unless otherwise specified by law. Supplemental appropriations may occur throughout the year. Unexpended encumbrances at each fiscal year end are carried forward until they are expended or canceled without further legislative action. RepMar does not establish budgets for the operations of its other governmental funds.

Accounting principles used in developing data on a budgetary basis differ from those used in preparing the financial statements in conformity with GAAP. Amounts included on the Statement of Revenues, Expenditures, and Changes in Deficit - Budget and Actual - General Fund (which are presented on a non-GAAP budgetary basis) are reconciled to unreserved deficit of the Governmental Fund Balance Sheet within the other changes in unreserved deficit section of that statement.

Encumbrance accounting is employed in governmental funds. For budgetary purposes, the encumbrances (i.e., purchase orders, contracts) are considered expenditures when incurred. For GAAP reporting purposes, encumbrances outstanding at year end are reported as reservations of fund balances and do not constitute expenditures or liabilities because the commitments will be reappropriated and honored during the subsequent fiscal year.

### REPUBLIC OF THE MARSHALL ISLANDS NONMAJOR GOVERNMENTAL FUNDS - CAPITAL PROJECTS FUNDS

### September 30, 2006

Capital projects funds are used to account for the acquisition and construction of major capital facilities other than those financed by proprietary funds and trust funds. A brief discussion of RepMar's Nonmajor Governmental Funds - Capital Projects Funds as of September 30, 2006, follows:

### Section 211 Compact Capital Account

This fund accounts for United States Congress appropriations under United States Public Law 99-239, Title II, Article I, Section 211(a)(1) and approved by Nitijela resolution 62. The aforementioned section requires no less than 40% of the total amounts appropriated by the United States Congress to be applied to the capital account.

### Section 211(d)(2) Infrastructure Maintenance Fund

This fund accounts for United States Congress appropriations under United States Public Law 99-239, as amended, Title II, Article I, Section 211(d)(2) and approved by Nitijela resolution 123. The aforementioned section requires 5% of the annual Public Infrastructure Sector Grant be set aside with an equal contribution from RepMar for the purpose of funding infrastructure maintenance programs as approved by the Government of the United States.

### Other Capital Projects Fund

This fund accounts for miscellaneous monies received that are specifically designated for capital-related projects.

### Section 111 Investment Development Fund

This fund accounts for United States Congress appropriations under United States Public Law 99-239, Compact of Free Association, Section 111 and approved by Nitijela resolution 62. These funds were subsequently transferred to and vested in the Marshall Islands Development Bank under Public Law No. 1988-21.

### Marshall Islands Development Authority (MIDA) Fund

This fund accounts for capital projects specified under Public Law No. 1988-14, Section 12 and Schedule 3, appropriated to MIDA from Capital Account funds provided under Section 211 of the Compact of Free Association. Those appropriations do not lapse at the end of the fiscal year, but continue until either the purpose of the appropriation is complete, or the funds are expended, whichever occurs first.

### Asian Development Bank (ADB) Development Projects

This fund accounts for capital projects funded by Asian Development Bank loans. These projects include the fisheries development (ADB Loan Number 1102 MAR (SF)), typhoon emergency rehabilitation program (ADB Loan Number 1218 MAR (SF)), improvement of basic education (ADB Loan Number 1249 MAR (SF)), Majuro water supply project (ADB Loan Numbers 1250 MAR (SF) and 1389 RMI (SF)), improvement of health care (ADB Loan Number 1316 RMI (SF)), the Ebeye health and infrastructure project (ADB Loan Number 1694 RMI (SF)), and the skills training and vocational education project (ADB Loan Number 1791 RMI (SF)).

### REPUBLIC OF THE MARSHALL ISLANDS NONMAJOR GOVERNMENTAL FUNDS - PERMANENT FUNDS

September 30, 2006

Permanent funds are used to account for resources that are legally restricted to the extent that only earnings, and not principal, may be used to support programs for the benefit of the government. A brief discussion of RepMar's Permanent Funds as of September 30, 2006, follows:

### Intergenerational Trust Fund

Intergenerational Trust Fund, a Governmental Fund Type - Permanent Fund. This fund was established under Public Law No. 1999-90 to provide for an additional source of revenue for the government budget that will be needed to substitute for the absence of Compact of Free Association funding. Earnings from funds invested would not be available for distribution until October 2023. During the year ended September 30, 2005, RepMar made a one-time transfer of \$33,861,929 from the Intergenerational Trust Fund to the Compact Trust Fund representing the establishment of the Trust Fund in accordance with Section 216 of the Compact of Free Association.

### REPUBLIC OF THE MARSHALL ISLANDS FIDUCIARY FUNDS - PRIVATE PURPOSE TRUSTS

September 30, 2006

Private purpose trusts are used to report any trust arrangement not properly reported in a pension trust fund or an investment trust fund "under which principal and income benefit individuals, private organizations, or other governments." A brief discussion of RepMar's Private Purpose Trusts as of September 30, 2006, follows:

### Marshall Islands Social Security Administration (MISSA)

This fund established MISSA under Public Law No. 1990-75, which administers the Marshall Islands Social Security Retirement Fund, to provide a financially sound social security system with pension benefits and early retirement.

### Kwajalein Atoll Trust Fund

This fund accounts for funds received under the Interim Use Agreement, to be disbursed to various Kwajalein landowners.

### Section 212 Kwajalein Landowners Fund

This fund accounts for United States Congress appropriations under United States Public Law 99-239, as amended, Title II, Article I, Section 212 and approved by Nitijela resolution 123 in accordance with the Military Use and Operating Rights Agreement.

### Nuclear Claims Trust Fund

This fund accounts for United States Congress appropriations under United States Public Law 99-239, Compact of Free Association, Section 177(c) which were paid and distributed in accordance with an agreement between the Government of the United States and RepMar for the implementation of Section 177 of the Compact of Free Association.

### REPUBLIC OF THE MARSHALL ISLANDS NONMAJOR COMPONENT UNITS

### September 30, 2006

Component units are legally separate organizations for which the elected officials of RepMar are financially accountable. A brief discussion of RepMar's Nonmajor Component Units as of September 30, 2006, follows:

### Air Marshall Islands, Inc. (AMI)

AMI was granted a corporate charter by the Cabinet of RepMar on October 12, 1989 to provide domestic and international carrier service within and from the Marshall Islands. AMI is governed by a seven-member Board of Directors appointed by the President upon approval of the Cabinet of RepMar.

### College of the Marshall Islands (CMI)

CMI was established as an independent institution pursuant to the College of the Marshall Islands Act of 1992 (Public Law No. 1992-13) to provide post-secondary education services to meet the needs of the Marshall Islands. CMI is governed by a nine-member Board of Regents appointed by the President upon approval of the Cabinet of RepMar.

### Majuro Resort, Inc. (MRI)

MRI was granted a corporate charter by the Cabinet of RepMar on November 8, 1995 to engage in the operation of a 150-room hotel on the atoll of Majuro. MRI is governed by a seven-member Board of Directors appointed by the President upon approval of the Cabinet of RepMar.

### Majuro Water and Sewer Company, Inc. (MWSC)

MWSC was granted a corporate charter by the Cabinet of RepMar on January 26, 1989 to engage in the business of collecting and distributing fresh water, waste water and maintaining the sewer system. MWSC is governed by a seven-member Board of Directors appointed by the President upon approval of the Cabinet of RepMar.

### Marshall Islands Marine Resources Authority (MIMRA)

MIMRA was established as a body corporate pursuant to the Marshall Islands Marine Resources Authority Act of 1997 (Public Law No. 1997-60) to facilitate the sustainable and responsible use of the marine resources in the Marshall Islands. MIMRA is governed by a seven-member Board of Directors, including the Minister of Resources and Development, the Minister of Foreign Affairs, the Minister of Internal Affairs, and four members appointed by the President.

### Marshall Islands Visitors Authority (MIVA)

MIVA was established as a body corporate pursuant to the Tourism Act of 1991 (Public Law No. 1991-109) to develop and promote the natural, scenic, cultural, historical and recreation attractions of the Marshall Islands. MIVA is governed by a six-member Board of Directors (with the General Manager serving ex officio and without vote), including the Secretary of Resources and Development, the Secretary of Internal Affairs (or designee), three members from the private sector appointed by the Minister of Resources and Development upon approval of the Cabinet of RepMar.

See Accompanying Independent Auditors' Report.

### REPUBLIC OF THE MARSHALL ISLANDS NONMAJOR COMPONENT UNITS

September 30, 2006

### RMI Environmental Protection Authority (EPA)

EPA was established for the protection and management of the environment. EPA is governed by a five-member Board of Directors appointed by the President in consultation with the Minister of Resources and Development.

### Tobolar Copra Processing Plant, Inc. (TCPPI)

TCPPI was granted a corporate charter by the Cabinet of RepMar on August 13, 1977 for the primary purpose of engaging in the production, processing, and marketing of copra products. TCPPI is governed by a six-member Board of Directors (with the President serving ex officio and without vote) appointed by the President upon approval by the Cabinet of RepMar.
